Continuation of 11. does NOT place the application in condition for allowance because: The Applicant's arguments against the rejection of Claims 1, 12, 23, 34, 44, and 54 have been presented with a new claim limitation(s). The added limitation(s), particularly "for controlling connections of PC cards with a host computer" and "to connect the PC card connector to a bus interface of said host computer", narrow the scope of the claims in a way that have yet been considered with the present references cited.
